

PEOPLE'S DENTAL ACADEMY

DEPARTMENT OF FORENSIC ODONTOLOGY, ORAL PATHOLOGY & MICROBIOLOGY

People's University aims to create better prospects for Dental professionals pertaining to job and career opportunities in dental forensics. The prime objective of this course is to train candidates so as to ensure higher competence in both general and special areas of interest and, to prepare him/her for a career in this specialty. This course will empower them to aid in medico-legal investigation, in both civil and criminal cases.”

Dr. Ashith B. Acharya is an Australia-trained forensic odontologist having completed his Bachelor's degree in dentistry in 1999 and his post-graduation in 2001. He heads India's first exclusive department of forensic odontology in SDM College of Dental Sciences, Dharwad, Karnataka. With over 17 years' experience, he teaches undergraduate and postgraduate students, and serves as a consultant in forensic, dental, anthropological, and archeological cases referred by the police, government agencies and forensic medical experts from across India. He is a founder-member of the Indian Association of Forensic Odontology and is currently serving as its Hon'ble Secretary. He is an editorial board member/reviewer in several National and International dental and forensic journals; he is also a

member of the International Organization for Forensic Odonto-Stomatology's Age Estimation Workgroup and Bite Mark Workgroup. He has published 42 journal articles, 33 of which have appeared in top international forensic and dental journals; he has also contributed to government reports, and chapters on forensic odontology to eminent textbooks such as Shafer's Textbook of Oral Pathology.

Forensic dentistry or Odontology is the application of dental knowledge to those criminal and civil laws that are enforced by police agencies in a criminal justice system. Forensic Odontologists are trained specialists, who assist investigative agencies in identifying recovered human remains after any disaster or crime. Forensic dentists may be asked to assist in determining age, race, occupation, previous dental history and socio- economic status of unidentified human beings
